

Empty Fields - F.1 (F stands for Field) for Zebra 2 is the first in a series of soundsets inspired by the beautiful empty landscapes and the nature surrounding us.

This time no cinematic sounds or heavy trailer orientated sounds. Now its time for soft and evolving ambient sounds, icy plucks and arps, lush leads and nice quirky fx patches. The total of the soundset contains 125 patches divided into ARP's, Basses, FX, KY (Keys, Mallets and Plucked), Percussion, Pads, Soundscapes and Sequence patches

All the patches have the 4 XY pads assigned to controls and the modwheel controls mostly the filters. Some patches have also the Pitchwheel assigned to a control.
