

U-HE DIVA

NORSE MYTHS

INTRODUCTION

We are really delighted to be able to present you **NORSE MYTHS**, the latest soundset for DIVA by

SubsonicArtz.

Norse MYTHS was built with and for the mighty **DIVA (1.4.3) vsti** from **U-HE**.

To bring this project to life, we've taken inspiration from Norse Mythology and the music from composers such as Olafur Arnalds, Nils Frahm, Uno Helmersson and Peter Broderick to name a few.

Norse Myths as been designed to bring you a large palette of Nordic sounds and vibes ; from analogue noirish sounds, to Nordic soundscapes and ambiances, to dramatic underscore synths sounds.

We do hope that you'll like this set as much as we did when we built it...
